RE: Universal Periodic Review - United States Human Rights Violations & Seek Re-Instatement of the United States in the United Nations Human Rights Council

To All Parties,

In 2001, under the Bush Administration, the United States was removed from the U.N. Commission on Human Rights due to their views and actions. I allege this may have been an intentional act by the Bush Administration for crimes and the war being plotted. In viewing your website www.ohchr.org under documentation for the United States, I see no documentation to show the United States has been re-instated under the U.N. Human Rights Council. Access to International Criminal Courts due to scenarios I am about to discuss against the Bush Administration and the United States for Human Rights violations, frauds and other crimes have affected the United States and many world nations. A re-instatement of the United States in the U.N. Human Rights Commission or action without the re-instatement is warranted for JUSTICE.

I am a Nichiren Buddhist and am seeking your assistance and that of President Ikeda of the Soka Gakkai International, who is a member of the U.N. Human Rights Council. I equally seek assistance from Congressman Hank Johnson of Georgia and all Nichiren Buddhists worldwide to review courts in every nation for torturous abusive practices to the people, corrupted justice, and intentional crimes perpetrated by governments. The United States victimizing the American people and people of world nations is due to U.S. government corruption.

Serious issues of American rights violations are occurring in the U.S., those being Human Rights, Constitutional, Civil, Property, Family, & Victims Rights. Laws and rights are most obviously violated in U.S. Courts, which are documented. Treason during times of war, sedition, criminal conspiracies, organized crime, mafia activity, fraud and lacking authority by politicians are some of the main reasons behind these rights violations. The U.S. Constitution is the law of the land in the United States. There are protections against cruel and unusual punishment, the rights to protect property, due process for jury trials to halt illegal jail sentences, rights to the life, liberty and the pursuit of happiness and many other rights. Many violations taking place in the U.S. are due to a foreign governance/traitors and private corporate agencies that do not have allegiances to Americans or world nations. Justice in the United States has been tremendously compromised. International Criminal Court Trials may be the best course of action to serve justice on political traitors from Washington, D.C.

Three major incidents in the United States since 2001 prove excessive criminal activity against the American people. The people of other nations are also harmed by some of these acts. The Senate Judiciary when the Obama Administration was coming into office filed a bill granting their own immunity against criminal acts, they apparently knew they needed to cover-up their own criminal liability. I am not sure if the same action occurred with the House Judiciary. The U.S. Judiciary as a whole has been fraudulent. They do not allow review of Article III of the U.S. Constitution which has aided immense organized crime and laws and rights violations to families, individuals, businesses in U.S. Courts for years.

1. 9-11 – Criminal conspiracies by parties tied to the attacks have not been investigated to this great tragedy in U.S. history. The Iraq War was created falsely when no weapons existed and has carried into Afghanistan. Oil, poppy's, and a world banking system are possible reasons. Many Americans, innocent people, and other military individuals have died in these tragic wars. Many conflicts of interest exist in the appointment by President Bush of Attorney General Mukasey as he was the judge whom presided over the insurance money claim just applied for shortly prior to the attacks on the Twin Towers by Larry Silverstein with involvement by the New York/New Jersey Port Authority. Larry Silverstein personally owned WTC 7, his own building collapsed during this tragedy, which housed numerous U.S. Governmental agencies, but no plane hit this building and many U.S. investigations were lost. Why did the Senate Judiciary pass through Mukasey's appointment with a huge conflict of interest? Issues already existed with Attorney General Gonzalez and the firings of U.S. Attorneys weakening America's prosecution of criminals. A court corruption estate theft shows ties to parties named and mafia activity which has been provided to the U.S. DOJ. Pres. Bush, V.P. Cheney, Henry Kissinger all had ties to Osama Bin Laden. Henry Kissinger was brought in to review the Jersey Girl Commission, created by women whose husbands died in the 9-11 tragedy seeking answers. Kissinger needed to remove himself for conflicts of interest when questioned on ties to Osama Bin Laden. The Bush Administration chronically weakened F.B.I and other investigative U.S. agencies. U.S. Courts and judicial protective agencies are corrupted beyond belief. The creation of Homeland Security violates American rights and liberties. Many parties should be investigated in this tragedy and why no action has been taken by the Senate Judiciary? In my view the Senate Judiciary is the most crooked segment of the U.S. government and has ties to all three matters I am discussing. The House Judiciary needs review as do other parties in the U.S. government and their agencies.
2. The set-up by the Federal Reserve colluded with the Banks, Goldman Sachs and other parties in the derivative/foreclosure/banking & economic debacle. This debacle was intentionally created and is filled with fraud, criminal conspiracies and many other crimes. This debacle has affected many Americans, businesses and world nations. Italy has begun to seek fraud charges on certain U.S. bankers. The United States lacks authority in addressing these serious issues. Derivatives were artificial products set-up to fail. American families have sustained tremendous harm especially in this land grab to steal properties, their homes, when poor lending practices were intentionally set-up to fail. The foreclosures are filled with fraud. Some main points of the fraud in foreclosures are due to the selling of mortgages, no contract exists with lenders they are only service providers to homeowners. No one can assign properties except the homeowners, but back offices in banks are fraudulently issuing their own assignments. The debts monetization policies by the banks and Federal Reserve were phony monies, worthless created paper, bailouts and write-offs are some other important parts in this fraud. I hoped when the Obama Administration took office these issues would be addressed, but the constant creation of U.S. assistance that does not work has only aided this fraudulent scam harming countless American homeowners and society. The Senate Judiciary, the Banking & Finance Committee, The Federal Reserve & Bankers should be held accountable for these crimes along with others.

Let me state I have fought numerous crooked attorneys and judges in courts. Crooks are like cockroaches, their infestation multiplies and multiplies. Crooks do not stop, unless action is taken against them in seeking justice. Criminal charges should be brought against many parties and foreclosures should be halted, Americans restituted. International Criminal Courts are the best remedy in seeking justice for Americans and world nations, since the United States cannot act.

3. Lacking Justice Due to U.S. Court Corruption. I am a Fraud on a Court crime victim that occurred in San Mateo Superior Court in California that led to the Ulster County Supreme Court in New York. My initial courthouse fraud scam involved an attorney and judge which

grew into more crimes with more crooks. Judicial agencies including Bar Associations in both states had excessive organized crime and were inoperable as were complaints to politicians. In 4/08, I received a fraud ruling and subpoenaed Governor Arnold Schwarzenegger to my jury trial in 5/08. It appeared a payoff was made by the insurer of the attorney, First Mercury Financial (FMR) by their legal counsel to a judge to enter a fraudulent judgment. The CA DOJ was notified the day of my jury trial violation, a Constitutional Rights violation.

Any and all of my rights were violated before the CA DOJ's and Governors involvement. My most precious rights, my human rights, to protect my life and health, have been chronically violated while I have been victimized and tortured. I sustained two physical injuries to different intestines from the excessive stress in this highly traumatic crime to steal my property with no protections for my person. The reckless intent to keep harming my life, property, self-employment and violating my rights plus laws, after the Governors, CA DOJ's, First Mercury Financial (FMR) and other parties involvement is inhumane and lacks authority. I became very vocal as a rights activist, corruption fighter and exposed many serious issues plaguing U.S. Courts and society, besides corruption in other court cases. I believe Congressman Hank Johnson of Georgia assisted me by having the U.S. DOJ contact me in the summer of 2009. The day the U.S. Marshall contacted me, I was preparing to expose 6 other cases tied to my initial judge in my fraud crime. An answer related to this judge was supposed to be answered in November 2009, presently this crook judge still sits on the bench and other major crooks are still in their positions. I became more vocal with AG Holder and the corruption unit in the U.S. DOJ at this point in time. These other victims are still being harmed, I am outraged and repulsed by the lacking authority and these injustices. I pay the price daily for these crimes against my person and my life. No relief payments would be provided me by the DOJ'S, while I have been held captive in this fraud crime for 6 years with no remedy due to these courts corruption and many U.S. Government crooks.

In February 2009, the California Legislature passed a bill SBX 211 signed by Governor Schwarzenegger to cover-up and grant judicial immunity to crook judges and related personnel who were caught taking payoffs/kickbacks in Los Angeles. Constitutional rulings were received by Judicial Watch prior to this bills signing, judges cannot take outside monies. Attorney Richard Fine uncovered this judge scheme. Attorney Fine has committed no crime and is illegally jailed for over a year by a crook judge for exposing this courts corruption. This case has been followed by Leslie Dutton of Full Disclosure. All of Attorney Fine's rights have been violated and his case shows equally how inoperable the courts are in seeking remedy or justice. Attorney Fine's Human Rights have been violated and he now has dental issues with no treatment while in jail, plus extreme stress from this highly traumatic crime. I have begun seeking indictments with AG Holder on the Governor and CA DOJ if SBX 211 is not rescinded immediately. I request freedom, an honoring of our rights for myself, Attorney Fine and other exposed victims be respected immediately with action and indictments on the many crooks in these matters. This inhumane ignorance is evil and irresponsible. Many Americans are being thrown in jail illegally violating due process rights of jury trials under the Constitution for kickback schemes with jails and the courts.

In December 2009, I took a stand with AG Holder that a National Security Breach to individual rights from my case and Attorney Fine's case exists due to the Governors and CA DOJ's direct involvement in our crimes. Human & Victims Rights and other rights must be honored and this intentional harm must be halted. Media and rights agencies aid court corruption by concealing it.

In my view these courts are versions of Holocaust like treatment. The conditions of organized crime and violations of laws and rights harm emotionally, physically, and financially. Impoverishment, physical injuries and death are results of these inhumane courts. These are tyrannical barbaric treasonous U.S. Courts. The lacking authority of the U.S. Judiciary,

politicians and once again especially the Senate Judiciary is heinous. Payoffs to U.S. politicians are behind these tragic circumstances, these payoffs are equally Unconstitutional.

The adversarial process, a criminal process used against families should be banned as a Human Rights Violation. Emotions, stress, and trauma harm the physical body and create extreme emotional pain and suffering. Keeping Americans captive or hostage for years in courts is a form of torture and it alters every aspect of an individuals' life and their freedoms. Conflicts of interest by Bar Associations are tremendous for attorney gain and theft of property. Many practices, procedures, protections for the people, oversight by non-corrupt agencies and mandatory reform are needed for the sake of Justice and to preserve the rights of the American people.

Many issues stated in this letter violate the International Bill of Human Rights, and all rights of Americans in the United States. AG Holder's own present lack of responsibility and action is questionable at this juncture. Please seek review of all courts worldwide for similar heinous Human Rights violations and Holocaust like treatment of those occurring in U.S. Courts. Please take action in International Criminal Courts on parties whom have violated world nations and the United States. I will assist in any way possible in seeking the United States be held accountable for their Human Rights & other rights violations for a better society & world.

Thank you,
Cheryl Kennedy

TO FREEDOM, PEACE & FOR THE RIGHTS OF THE PEOPLE!

CC: AG Holder – please give to Pres. Obama directly, Governor Schwarzenegger, CA DOJ, FMR – legal counsel, Senator Feinstein, Senator Leahy for all U.S. Judiciary members, media etc.
